

Analytical mill AX 60

Analytical mill for drive units X 1000 and X 1000 D incl. stainless steel beater blade with coolable refining zone.

Couples to the drive unit just the same way as the interchangeable shafts.

The mill attachment handles a variety of applications.

Grinding capacity is 180 cc

The chamber is completely sealed, offering dust-free pulverization.

Both grinding chambers have inlet/outlet ports which can be used with a refrigerant coolant, such as N₂.

The blades of the analytical mill automatically disengage from the motor when the grinding chamber is opened.

There is a choice of interchangeable blades either in plain stainless steel, or, with carbide inserts, for processing extra hard materials.

Analytical mill AX 60	Part No. 60409-00
Outer diameter:	115 mm
Total height:	130 mm
Weight:	1.2 kg
Dimensions of the chamber:	
Inner diameter:	63 mm
Inside height:	2 x 29 mm

Accessories / Spare parts:

Stainless steel blades

Part No.: 60478-00

Blades with carbide inserts

Part No.: 60479-00
